Town of Skikda, Algeria

Known for an economic vitality underpinned by the country's largest petrochemical platform, Skikda is also a highly tourist area with its sandy beaches, its panoramic sites and its vestiges of high historic value, also contains an imposing forest where can develop the tourist sports mountain, of hiking, discovery and hunting.

Objectives

Following all successes in the scientific and organizational aspects of past sessions, the 1st, 2nd, 3rd and 4th International Conferences on Maintenance and Industrial Safety held in Skikda since May 2009 to November 2017.

5th International Conference on Maintenance and Industrial Safety CIMSI'2019 aims to bring together experts in the field of maintenance and industrial safety, to take stock of the latest research developments in this area. The themes chosen correspond to the research activities developed at the University of "20 Aout1955-SKIKDA". This gathering will allow the creation of links between national and international researchers, as it will also make known the research activities developed here in Algeria.

It also will confront the research results, establish a serious scientific debate and create opportunities for collaboration with the laboratories of national and international research.

The opportunity to open up the industrial world will also be an important part of this scientific event.
